

STADLER®

Engineering at its best

STADLER WARNING

Dear customers,

sadly, there are increasing phishing attempts on internet, informing false bank details in our name and trying to get real payments done in the wrong bank account.

We would like to inform you that any changes on our bank accounts or payment proceedings will be done in a **confidential way** and not by a regular e-mail.

If you receive any e-mails in the name of STADLER, requesting the payments to be done in a new bank account, **please don't proceed with any transactions** before contacting your known STADLER collaborator by phone and clarifying the situation.

If the contact details of your accounting collaborator are not available, please contact STADLER through our main line **+49 7584 9226-0** or access our website **www.w-stadler.de**.
